77 Website Traffic Log Snippets

The Website: ColdCellTorture.com

I had a running blog website about cold cell torture, where I chronicled all of my research, and tracked all the domestic inmate deaths from hypothermic cold cell torture, as well as the progress of my lawsuits. When someone visited the website, I would get their general location and identification information from the raw website log files.

The federal courts treat website traffic logs as being in the "public domain" as already being "published." Case law and practice consider website log data to the level of "irrefutable evidence."

When the general public visited the website, they usually became so fearful that they left and never returned, being such a scary truth. But the government types visited almost every day, keeping close tabs on my newest entries to the blog. George W. Bush, Dick Cheney, the CIA, the FBI, the Department of Justice types, as well as visitors from around the world kept visiting the website every day.

Below are seventy-seven (77) snippets of website visits by various bad actors. These website visits cover the period from the end of my lawsuit at the Supreme Court (2016) to 5/29/2019, the start of my exile.

These 77 snippets come from over 2,400 pages of annotated website log files. Too many to chronicle, therefore, I have lifted 77 of the most significant.

This period covers these main events:

- 1) George kept recruiting shills to pay me off with money, they all said no.
- 2) Seven month long FBI investigation of me, finding nothing useful.
- 3) George goes back to recruiting shills.
- 4) George orders Google to remove my website from their search engine's first result position.
- 4) I wrote an email to CEO Larry Page to not listen to criminals, Larry immediately restored my website at the first return result position.
- 5) A dozen CEO's all of a sudden become involved, all became loyal to George, and in opposition to me.
- 6) A group of high school educators connected to Lightspeed Systems wrote a long white paper on George's use of cold cell torture/murder. George was caught by surprise and bribed or threatened them to not publish their paper on cold cell torture.
- 6) President of Interpol was arrested in China for accepting bribes from George to pay off the ICC (International Criminal Court) judges to thwart investigation into cold cell torture/murder in Afghanistan.
- 7) George made Bill Gates an equal partner in power to lead the negotiations with China to avoid embarrassing revelations of corruption.
- 8) Bill Gates conducted dozens of meetings to negotiate with China to not bust George for bribes to the ICC judges. China takes advantage of the weak position and agrees to keep secrets. Ending

our sovereignty as a nation.

9) The ICC judges voted to not open the Bush2 war crimes investigation. But a year later they reversed and opened the investigation. So, Bill's negotiations worked for a time.

10) Efforts to recruit shills to pay me off with money resumed.

11) The decision was made to just kill me instead, after obtaining permission from my father.

12) My exile began on 5/29/2019.

The below 77 log snippets contain notes made at the time. I add some current prose as a set up to some of them, others are self explanatory.

The website traffic log entries contain several items separated by the pipe "|" character. In order they are: name of webpage visited | IP address of visitor | date and time | website visitor came from prior to visit| string of characters about their computer.

While the actual identity of the visitor is unknown, the forensic identifiers, the date and time of visit, who they visited with at the same time, the repetition of visits, and clearly identifiable corporate IP blocks result in default identities to a statistical significance of near certainty. Some visitors came from proxy (hiding) addresses, such as George W. BUSH who always used the same proxies making identification efficient. Otherwise, all the identities are in my opinion.

The Lead Up

For almost two years, George W. BUSH kept recruiting members of his corruption group to act as a "shill" to pay me off with money after communicating threats. They all said no except for one person. But over this period George W. BUSH recruited hundreds of shills. About five (5) shills a day, mostly at night. One day George recruited ten (10) shills setting the record.

After George W. BUSH became frustrated at his failure at recruiting, he ordered a nationwide FBI investigation to dig up dirt on me to charge and prosecute me into submission. The seven month long investigation yielded nothing useful. George W. BUSH went back to recruiting shills.

The below 77 snippets start during the FBI investigation.

FROM:

kimberley hughes <kimberleyhughes@icloud.com>
I'm shocked to read your article about cold cell torture.

I too was striped naked and locked in a room with no bedding and a steel buck to lay on.
When they found out I was running the hot water to warm the concrete where the drain pipe run under it and keeping warmer they shut the water off.
You confirmed it was to torture me.
I filed a lawsuit but my ex lawyer now a federal judge dismissed it for no merit.
Sent from my iPad

I replied:

Kimberley,
I am just happy you survived. So many have not. Find a new lawyer and file a new lawsuit. Fewer torture lawsuits are dismissed today than in the past. If you do not have justice in this life, you will in the next. Hypothermia kills, you were tortured with attempted murder. That is why I am glad you survived.
Be well, David

(update note 1/20/18: This above person was actually an FBI plant, to try to entice me to practice law without a license. The FBI was desperate to prosecute me for anything. Thankfully my advice to her was to hire a lawyer, the FBI was hoping otherwise.)

New York City. FBI agent getting my email address. At 12:04pm ET. Gov-issued secure iPhone OS version 10_3_3.

All of a sudden, at 12:28pm, a half hour after the above FBI agent grabbed my email address from my website, I received an email from Rachel Rose in NYC begging me to write a motion for her family court hearing this Wednesday, regarding her efforts to obtain child support from her baby daddy. She offered to PayPal me \$1,000 today, and \$1,000 later, if I write the motion for her. She was urgent in her need.

An hour later, at 1:34pm ET, Rachel sent a second email, begging for me to reply. Attached were legal documents for me to review, and the email

contained more legal facts. The FBI is desperate and have nothing useful, so they have to entice with bait on a hook. It is 2:00pm ET at the moment, while in NYC Rachel and the FBI agent are sitting, waiting, and hoping I reply. I will never reply. I wonder how long they will wait?

Above, Warren visited the 'suicide' page meaning he just spoke with George. The way George tells new people about cold cell torture is from the angle of suicide watch, so when the new person searches Google for such terms, it always lands on the suicide watch page of coldcelltorture.com. Trump says he met with New York Times publisher at White House

CBS/AP July 29, 2018, 10:03 AM

<https://www.cbsnews.com/news/trump-tweets-he-met-with-new-york-times-publisher-a-g-sulzberger-at-white-house/>

Tweet at 8:30am ET:

Had a very good and interesting meeting at the White House with A.G. Sulzberger, Publisher of the New York Times. Spent much time talking about the vast amounts of Fake News being put out by the media & how that Fake News has morphed into phrase, "Enemy of the People." Sad!

— Donald J. Trump (@realDonaldTrump) July 29, 2018

The article stated: "After Sulzberger took over from his father on Jan. 1, Mr. Trump tweeted that his ascension gives the paper a 'last chance' to fulfill its founder's vision of impartiality." These words may prove a self fulfilling prophecy here? As Sulzberger has the chance to be a hero, and save our nation. Instead he betrayed our nation in a series of serious crimes.

The Trump Tweet was at 8:30am ET, so their meeting likely occurred yesterday, [at NJ Golf course] Did Trump convince the NYT's to sink the cold cell story? What deal was made?

Above, based on traffic, the 2018 Nobel Committee awarded me a Nobel Prize in Literature as a way to bust George and his killers, splashing cold cell torture all over the world. The previous year, 2017, bribes prevented the award, but now it looks like the award will stick? My sister Cindy was alerted by Laura, who told Mrs. Pickens above, and her son Tom Pickens. [Update Note: Bribes won again. And again in 2019, until the Nobel Literature Committee disbanded due to corruption. But reformed a year later, only to be bribed again in 2020.]

Above, first visit by an ICC judge. Likely Trump using his personal iPhone. Trump just spoke with George because Donald visited the 'suicide' page, indicating the way George describes cold cell torture to someone new. This ICC judge was hard to twist, must have paid him off with a lot of money. Based on his frequent visits hereafter, he is really paranoid about being busted. He will spend the rest of his life in a cold cell dungeon somewhere. Sweet irony. Below George visits, worried about spending his life in a cold cell too.

It is 8:05pm ET, and for the past few hours there has been a mini run on Facebook when someone in the New York City library posted something about 'cold cell torture.' Then spread. A FBI officer and Sarah Palin constantly monitor Facebook for any postings about cold cell torture. They then alert George.

Below, Anchorage, Alaska, GCI, this is Sarah Palin in Wasilla. She shows up each time there is a run on Facebook about cold cell torture. She last visited on 7/29, the day of the last run on Facebook. At 8:59pm ET.

At 9:40pm ET (5:40pm Alaska time,) I sent the below message to Sarah Palin via the form submission on her website. The subject was "TortureGate

Corruption Scandal."

"I am ashamed for you, having joined the pro torture/murder camp as a key supporter. In heaven I am going to put you on trial in final justice court, and you will answer the questions from all those victims tortured to death by those you gave such great oral support."

[UPDATE NOTE on 9/30/2018: I sent the above message to Sarah at 5:40pm Alaska time. Five hours later at 10:30pm Alaska time, Sarah's son Track Palin, was arrested on domestic violence charges, resisting arrest, preventing reporting of a crime, and others. This caused Track to be rejected from the veteran's program, and serve a year in detention, in a half-way house.]

At 4:04pm ET, it appears based on the above, that China has been speaking and listening to Bush2's side of the ICC judge bribe story, and to my book unspeakablepain.com, and me, obviously. If I could only be a fly on the wall.

I assume China will use this as some sort of negotiating tool, leveraging wide public disclosure verses what they want from the U.S. to remain hidden? Or, is this something that China will use to bolster themselves in the world's opinion, while putting mud in the eyes of the U.S.? If they go with corruption cover up they become stuck with it too. No way out afterwards. Whole ship sinks together.

But it appears Bush2 bowed down on both knees in humiliation to the Chinese government, admitting crimes of making bribes; and why.

South Korea, corrupt ICC judge Chung-Ho Chang, checking in at 4:24pm ET, right as Trump and Jinping meet for dinner. Nervous about his fate.

Update Note: The McAfee founder was prosecuted for tax crimes and sent to prison in Spain. Once extradition back to the USA was ordered, this man was found dead from hanging in his prison cell. His family posted to his social media account the letter "Q." Which explains his murder. He must have threatened to rat out the criminals. Got the usual ending.

Above, CISCO CEO criminal recruiting a shill to pay me off with money. But the shill is connected to the Dyersberg paper about cold cell torture written with Grammerly, as this shill is using a Chrome Book, which that whole group of educators use. They are associated with Lightspeed Systems. This shill said no way, after clicking on 'CIA' page - too scary. Below, the CEO tries recruiting another shill minutes later.

Above, payment of money to the crooked ICC judge. This Hurricane Electric money payoff person pays off the Nobel people each year, and always shows up when bribes are paid to newly twisted criminals.

Whenever I sent a Tweet, immediate bot hits came from all those granted access to spy on and track a victim. Twitter must offer this service. I have no idea who is in Italy. CIA and someone at Twitter HQ, then Rupert. The FBI used to track for awhile, but gave up. Common denominator is they are all criminals.

Wife of Meng Hongwei, missing ex-Interpol chief, slams ‘political nature’ of his detention in China and rejects corruption claims

<https://www.scmp.com/news/china/science/article/3003746/wife-meng-hongwei-missing-ex-interpol-chief-slams-political>

The Communist Party’s Central Commission for Discipline Inspection (CCDI) said Meng was suspected of taking bribes and causing serious harm to the party’s image and state interests, adding

he should be severely dealt with.

China making the above move was triggered by something.

Debrief

The common denominator of all the visits and meetings were me as the focal point and them as the criminals. Both the width and depth of the corruption is complete.

I had accumulated visits from a vast array of who's who of criminal world leaders and billionaires. Bribes. extortion, coercion, threats, organized crime, racketeering, corruption, conspiracy, assassination, and murder.
