

5/9/2025 - Evidence that Mark Zuckerberg and George W. Bush gave China "Full Access" to Facebook and the NSA Super Data Center to spy on American citizens

On March 11, 2025, former Facebook executive Sarah Wynn-Williams published a book titled "Careless People: A Cautionary Tale of Power, Greed, and Lost Idealism" about Mark Zuckerberg giving China access to Facebook to spy on American citizens, among other claims. Sarah Wynn-Williams then testified before congress about her claims. Meta spokesperson Andy Stone said "Sarah Wynn-Williams' testimony is divorced from reality and riddled with false claims." Then Mark Zuckerberg testified before congress claiming China does not have access to Facebook.

China constantly monitors my coldcelltorture.com website because of their involvement with George W. Bush and his loyalists bribing the judges of the International Criminal Court (ICC) in 2019 to not open the war crimes investigation into Bush's use of cold cell torture to kill innocent Muslims with hypothermia. It was Chinese citizen and president of Interpol Meng Hongwei (now in prison) that passed the bribes from Bush to the ICC judges. China agreed to keep Bush secrets in turn for Bush, the CIA, and Bill Gates rigging the 2020 election due to their hatred of Donald Trump (based on 2 years of website log evidence.) Bush, China, the CIA, Gates, and other technology CEOs (Larry Page, Tim Cook, Jeff Bezos, CISCO, ORACLE, GoDaddy) were behind Trump's criminal trials that failed, so the CIA recruited Thomas Crooks to shoot Trump, which also failed.

On May 6, 2025 several people visited coldcelltorture.com at 10:25pm ET and posted it to Facebook starting a viral run. China caught the visitors posting to Facebook and were able to delete the postings from Facebook bringing an end to the viral run. I recorded the whole series of events in the website log files, and was astonished that Mark Zuckerberg gave China "Full Control" of Facebook to spy on American citizens. Worse, logs show China then accessed the NSA Super Data center in Salt Lake City to obtain the data and IP addresses of the visitors.

So, not only did Mark Zuckerberg lie to Congress last month claiming China does not have access to Facebook, he has betrayed his country to the communist leaders running China, and our laws now require his imprisonment along with Bush and the technology CEOs.

Below are the website log hits as evidence of the above:
